

personally, would not recommend them because they presented the same situation as the agency I used two years ago.

Long story short...thank you for an excellent Match for my dad and great company for mom...she does not feel overwhelmed anymore and I can finally feel confident leaving my dad to go to work or back to my own home.

Michelle, you have been one very patient, understanding woman. In my opinion, you have gone over and beyond your duties in assisting me. The schedule has been changed so many times but you have endured my phone calls and given me great encouragement and advice. I wish I had your patience as I know dealing with a "family member" can be one tough job. You have "walked" me through this situation and I am so appreciative of this.

Again, thanks to everyone...
