RE: Letter of Referral for Premier Care Nurses of America

To Whom It May Concern:

Over the last seven years my mother Nancy E. Amestoy has struggled with ovarian cancer. I feel very fortunate for the latter part of that time to have Premier Care caring for my mother.

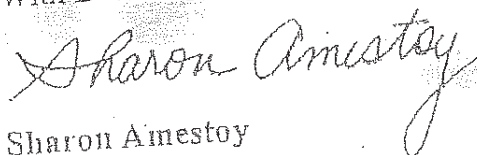

They were extremely professional and possessed a knowledge of medical procedures far surpassing most LPN's and RN's. They were very caring and nurturing and were always attentive to my mothers wants and needs.

They stayed with my mother through Hospice and even into the in-house Hospice By The Sea facility in Boca Raton.

I recommend them highly and would trust Premier Care in *any* care-giving situation. We were very blessed to have them at the end of my mothers' life.

Please feel free to call me if you would like additional information or other references.

With Best Regards,

Sharon Amestoy
